

Diffusion capacity of the lungs for CO - Practical guidelines for clinical interpretation of DLCO and KCO

Join us for an engaging and informative live webinar on the «Diffusion Capacity of the Lungs for CO,» where we will explore practical guidelines for the clinical interpretation of DLCO and KCO in restrictive lung disease. Led by renowned pulmonary physician Dr. Ivo van der Lee, this session will enhance your understanding of how DLCO and KCO relate to lung volume (VA), their dependency, and their roles in assessing gas exchange efficiency. Through real-world clinical examples, including PFT and radiology insights, you'll gain valuable tools to improve diagnosis and management of restrictive lung conditions. Don't miss this opportunity to deepen your knowledge and ask your questions in an interactive Q&A session.

Dr. Ivo van der Lee, MD PHD

Pulmonary Physician Haarlem/Netherlands
